GROUP

# Iphones at Wingman.

Wingman has a iPhone process whereby we can send your Remote Professional an iPhone. We utilise quality second hand iPhones priced below \$1,000.

An iPhone is a great way to directly text and or call your RP - we all love a blue bubble message...

We recommend going with a post paid plan as this can limit the expense per month and allow you to effectively know your expenses.

Wingman facilitates the distribution and setup of the phone, and simply add the phone cost to your direct debit (on an agreed date) and adds the cost of the plan to your ongoing direct debit with us.

Wingman takes no clip or financial lift in the monthly phone plan. For example, if you want to provide \$30 credit per month it will be an additional \$30 per month plus any fee's that may be applied by the service provider.
