

WINGMAN
GROUP

Meet your team.

Wingman prides itself on connecting people. While many see offshoring as a barrier to connect, we see things differently.

Wingman can organise and facilitate our clients to visit their staff in the Philippines. Wingman also extends an invitation to a certain number of clients each year to attend our team building trip.

Most of our interactions occur in Metro Manila at shared office spaces and luxury resorts. This is for convenience and safety measures.

However, we do not shy away from the realities of the Philippines and will expose guests to those realities so that they can see the different battles people in the Philippines face compared to those based in Australia.

It can be a humbling experience. Certainly a life changing one.
