

# Future proofing your business.

**Wingman does the following to set you up for future growth plans while minimising the impacts should your RP depart your business for whatever reason.**

- If you are not happy with your Remote Professional (RP) then we can outsource, interview and replace that RP at no cost to you.
- We offer lots of training should you wish to increase the skill capability of your RP (this is at no additional cost to you).
- We train your RP in creating manuals and SOPs (Standard Operating Procedures) of anything new they learn with you and to save these into a hub within your cloud/server. This allows them to build a knowledge hub and refer back to things.
- This knowledge hub that the RP creates allows the RP to take the lead in training any new RPs that you hire. Taking away any initial training requirements on your end until you are ready.
